---

- Um **SDK** para desenvolver apps **multiplataforma\***
- Foco em apps de **alta performance**, modernos e bonitos
- Desenvolvido pelo **Google** 🦴, é **gratuito e open-source**
- Multiplataforma (**iOS**, **Android** e **Fuchsia**)

# GOOGLE MATA!

[Open Source.](#) - [Find us on Twitter.](#)

## Killed by Google

Search

all (176) - apps (16) - services (147) - hardware (13)

### Missing something?

We rely on contributors to proofread, check accuracy, and keep this list up to date. The Google Graveyard is ad-free and open source. Feel free to get involved on [GitHub](#). Follow us on [Twitter](#) to get instant updates.

### Google Hangouts

Dead as a doorknob in over 1 year, Google Hangouts was a communication platform which included messages, video chat, and VOIP features. Execution scheduled "late 2020". It was almost 8 years old.

### Hire by Google

Sentenced to death in 12 months, Google Hire was an applicant tracking system to help small to medium businesses distribute jobs, identify and attract candidates, build strong relationships with candidates, and efficiently manage the interview process. It was about 3 years old.

### Fabric

Off to the glue factory in 7 months, Fabric was a platform that helped mobile teams build better apps, understand their users, and grow their business. It was over 5 years old.

### Hangouts on Air

Done for in 4 months, Hangouts on Air allowed users to host a multi-user video call while recording and streaming the call on YouTube. It was over 8 years old.

### Google Correlate

"Off with their heads!" in 3 months, Google Correlate was a service that provided users information about how strongly the frequency of multiple search terms correlates with each other over a specified time interval. It was over 8 years old.

### Google Fusion Tables

Kicking the bucket in 3 months, Google Fusion Tables was a web service for data management that provided a means for visualizing data in different charts, maps,

### Follow Your World

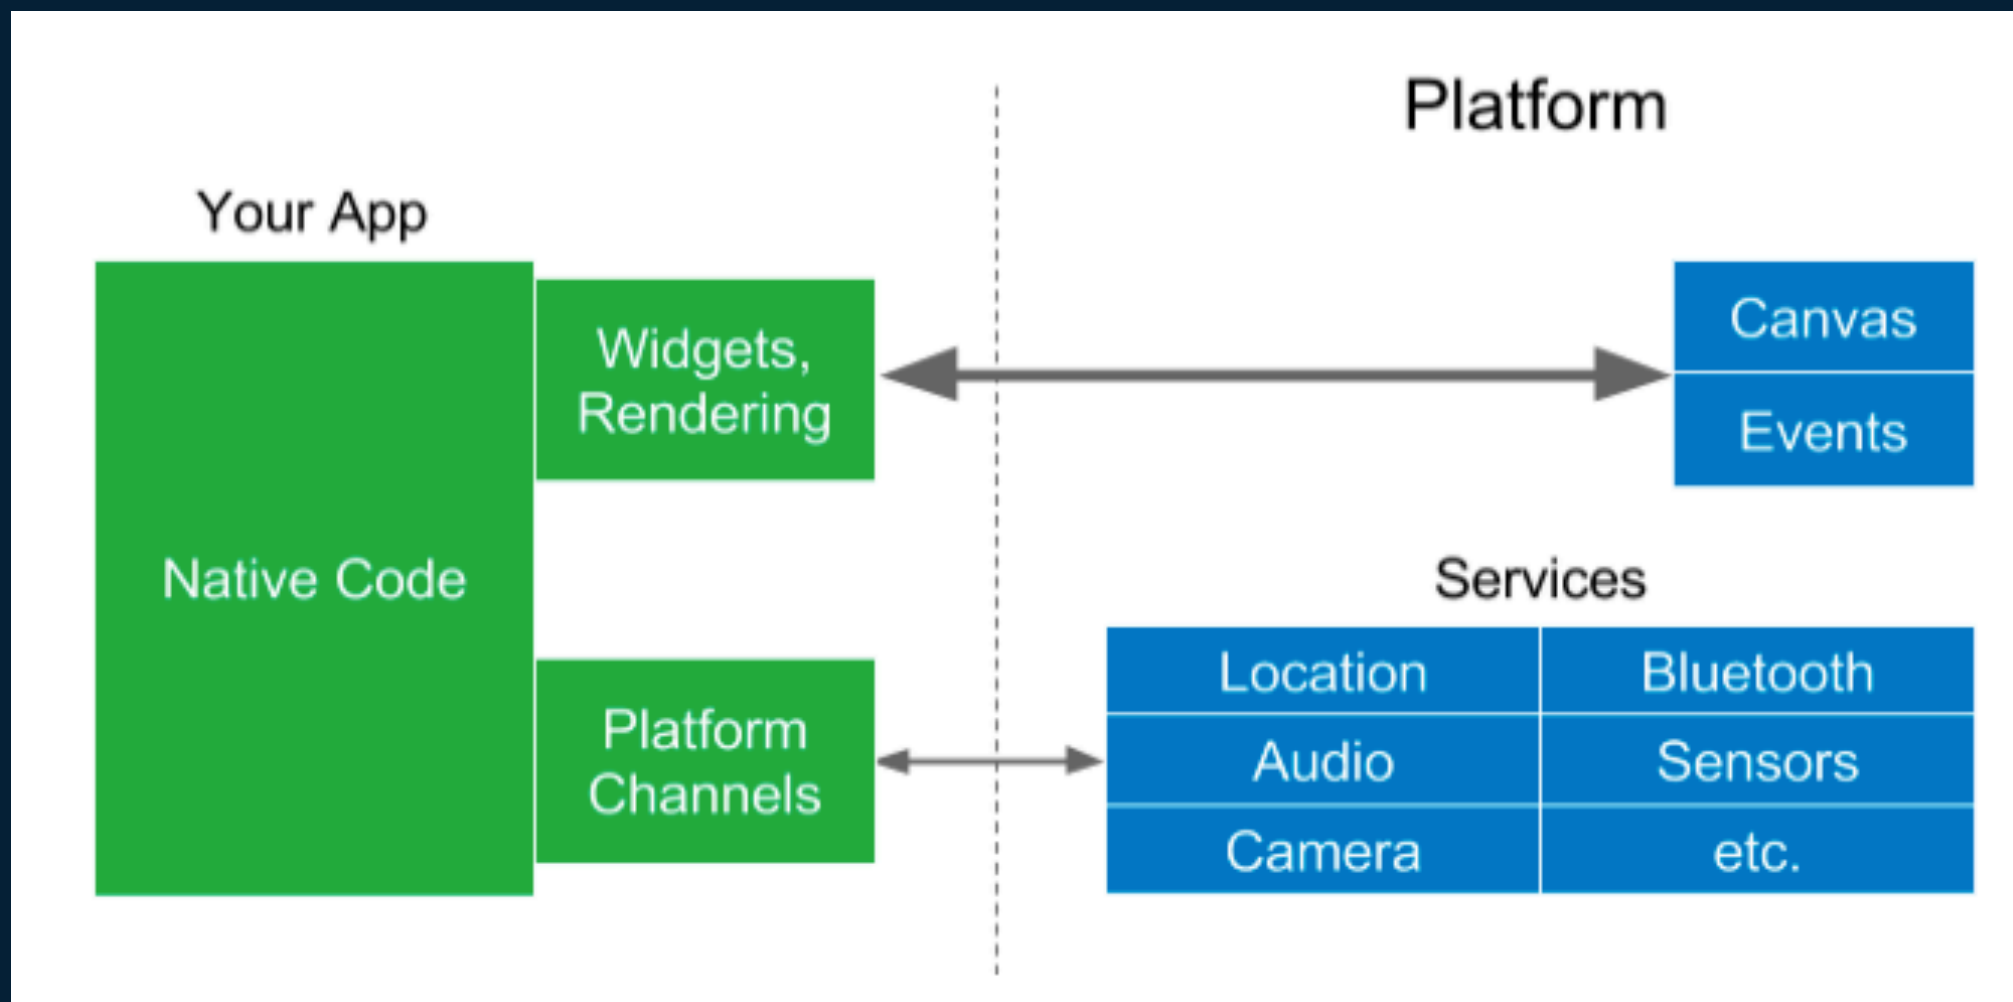

Another one bites the dust in 28 days, Follow Your World allowed users to register points of interest on Google Maps and receive email updates whenever the

### YouTube Messages

Done for in 16 days, YouTube Messages was a direct messaging feature that allowed users to share and discuss videos one-on-one and in groups on YouTube. It was about
